Where: Montgomery County Community College,
Western Campus, Room: South Hall
101 College Drive
Pottstown, PA 19464

RSVP: FirstSuburbsProject@gmail.com or (267)977-9654

- **High tax burdens**
- **Declining infrastructure**
- **Unbalanced housing policies**
- **Inadequate municipal and school services**

Our older developed communities surrounding Philadelphia are facing these serious challenges. Solutions that leverage our strengths and recognize our challenges through regional planning and proposals to revitalize our communities are necessary to regain our competitiveness. **The First Suburbs Project Western Montgomery and Northern Chester Counties Public Meeting will engage local leaders, legislators, administrators, and gubernatorial candidates on issues that are challenges for older developed communities.** We will secure support from these key decision-makers to work with us for changes in policies, funding mechanisms, and priorities. Together we can stabilize and revitalize our older developed suburbs that are at the heart of our counties and vital to the prosperity of our whole region.

Spread the word: The public meetings are designed to get our voices heard and demonstrate the power of our communities and coalition. All organizations and community members who care about the future of our townships and boroughs should be present.
